

S. S. Schorch.

Middleburgh, Pa. June 27 1890

Director U. S. Mint,

Phila Pa.

W. D. Dr.

In a table of the no. of Silver dollars coined each year by the U. S. mint published in the Phila. Record June 23. 90. The no. of Silver dollars for 1804 is given 19,570. — As is well known the 1804 dollar is considered by numismatists the Rarest of U. S. coin. In table above referred to it would appear 9th on the list there being according to table 8 other years in which there were fewer coined. — Again the no. for 1805 is given 321 a year in which writers on this subject as far as I know agree that there were none coined. Please explain
